GENERAL INFORMATION

SERVICE includes the supplying of Plant Material at our Nurseries; delivery to the client's property; or delivery and planting by a Planting Crew in charge of a Landscape Foreman. Delivery can be made by truck to almost any point at moderate cost, depending upon the distance and the quantity of material. Prompt shipment can be made by freight, carload lots or less; or by express.

Service also includes assistance in design, the selection and arrangement of material, and advice on the maintenance of plants and trees.

Clients are encouraged to personally select their material at the Nurseries.

PRICES in this catalogue cancel all previous listings, and are subject to change without notice. Prices include loading on trucks at our Nurseries, or are F. O. B. our shipping station, and include packing, except on material dug B&B, and on special bulky pieces, shipped by freight in less than carload lots, or by express, in which case material used in packing is charged additional at cost.

TERMS are net cash unless other arrangements are made at the time of acceptance of the order.

CLAIMS—When stock is not delivered by our truck, our responsibility ceases upon delivery of stock in good condition to transportation company. Claims for damage while stock is in transit should be made promptly to the transportation company.

GUARANTEE—On sizeable orders we guarantee to replace without charge plant material supplied from our Nurseries and planted by us, which dies from natural causes within one year after planting, provided this material has received normal care, and provided payments have been made promptly as arranged. On small orders special guarantee arrangements can be made.

In all cases the guarantee excludes fatalities from tornado, severe drought, abnormal winter, or other conditions over which we have no control. In making replacements we reserve the right to furnish other varieties of equal value where the original items are not available in our Nurseries at the time replacement is to be made.

B&B—Plant Materials which can not be planted successfully with bare roots are dug with a ball of soil, so as not to disturb the root system. This ball is securely wrapped and laced in burlap and is referred to as "balled and burlapped"—B&B. Large and heavy balls are mounted on platforms.

Prices which include B&B are based upon what we consider a normal ball sufficient for successful planting. Balls of greater diameter will be furnished upon request, at an additional cost.

NOMENCLATURE — Recommendations of "Standardized Plant Names" are used.

DECIDUOUS TREES

Deciduous Trees drop their foliage in late Fall and Winter.

EXCEPT in such varieties where heights only are given Deciduous Trees are measured by their caliper, i. e., the diameter of the trunk six inches above the ground for trees up to six inches caliper. Trees six inches or over in caliper are measured one foot above the ground.

Sizes in caliper as catalogued include trees measuring the smaller size, or between the two sizes given, but do not include trees measuring the larger size. Example: Tree measuring 3¼ inches rates as 3 to 3½ inches; tree measuring 3½ inches rates as 3½ to 4 inches.

Heights given with caliper measurements are general averages and are approximate only. Where no caliper appears, height is the governing measurement.

Trees not marked "B&B" (Balled and Burlapped) can be moved with bare roots when dormant. Should balling and burlapping be desired on such Trees, an extra charge will be made at the following rates:

2-3 inches caliper—\$ 5.00 each

3-4 inches caliper— 10.00 each

4-5 inches caliper— 15.00 each

See General Information for further details on balling and burlapping.
